As the population of Kensington seems to be steadingly increasing, it may not be inappropriate to give a brief sketch of the origin of its Library. In 1767 a Social Library was formed, and the originators names may be found in the first book which they bought. This book, after nearly two hundred years is still existant, and is kept in the Library vault. This Social Library is one of the oldest, possibly the oldest, in New England, and Kensington may justifiably be proud of it. By various stages it has developed into our present Library. It is of note that a small town, as Kensington is, should have what approximates a first class small

Library. Unfortunately a Library does not just grow, as Topsy was supposed to do, but to help its growth there is need of combined effort and interest, as a Library is usually regarded as a necessity in a modern civilization.

REPORT OF THE PLANNING COMMISSION

February 22, 1958

Article 9 of the 1957 Warrant of the Town of Kensington was adopted by majority vote. The members of the committee appointed according to the provisions of the article submit the following report.

Mrs. William Thorndike was appointed to serve in Mr. Carl Caspar's place, as he moved from town. We have to the best of our ability studied the needs and problems of the town relative to preparing a Zoning Ordinance. We have studied the Ordinances of towns surrounding Kensington, which are faced with similar problems. We have had many Committee Meetings during the year, a Public Discussion at the November Parent-Teachers Association, and two public hearings.

We have at these meetings presented the people with two different Ordinances. The consensus of those present at the Public Hearings seemed to us to be that the town was not ready to accept, nor did it feel the need for, many of the Articles in the Ordinance. However, most people present at the meetings and many others in the town have expressed the opinion that some moderate form of Zoning is necessary now and would be accepted.

The majority of the Committee feels that the townspeople support them in their belief that if Kensington's growth is to be orderly, steps should be taken now to prevent a poorly planned housing development from coming into town, some means should be used to encourage beneficial, well-set up Commercial and Industrial enterprises, and Trailer or Mobilehome parks

should be prohibited. These few items as submitted for approval on the ballot (or otherwise) will build a foundation upon which the town may continue to grow gradually and with the most good for the greatest number of people.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Kensington, New Hampshire:

The school year 1957-1958 opened with the following teaching staff:

Mrs. Esther Prescott, Principal and Teacher of Grades 5-7
Mrs. Pearl Marston, Grades 3 and 4.
Mrs. Virginia Lincoln, Grades 1 and 2.
Miss Mary Shea, School Nurse.
Mrs. Eleanor Henry, Music Teacher.
Mrs. Regina Matthews, Art Teacher.
Mr. Harold Mataver, Handwriting Teacher.

This is the same staff of competent and diligent teachers who taught so effectively a year ago with two additions. Mrs. Lincoln is teaching full-time and Mrs. Regina Matthews of Kensington was elected to teach art soon after school started. This step was taken because of the desire of the School Board to enrich the program as much as possible especially in view of the fact that the seventh grade students could no longer go to Exeter to school. Kensington is fortunate to have this staff of dedicated teachers again this year.

I am pleased to state that the Exeter School Board has voted to admit the eighth grade students from Kensington to the Junior High School in Exeter next year.

The six school districts of East Kingston, Exeter, Kensington, Newfields, Stratham and Brentwood for the past year have been studying the pros and cons of forming a cooperative district at the junior-senior high school level. The idea was discarded when it became apparent that there would be no financiel advantage to the Exeter School District which would bear 71% of the cost in the formation of such a cooperative.

A better arrangement as far as Exeter is concerned would seem to be in the direction of Exeter's financing an

addition to the present high school plant and then entering into a contract arrangement for tuition with the surrounding districts that would like to send their students to Exeter either for Grades 7-12 or 9-12. The Exeter School Board is presenting such a plan for an addition to the Exeter voters this year.

In order to give support to the Exeter proposal, the school boards in the other five districts which participated in the cooperative study have agreed to place an article in the school warrant asking the voters to vote on the matter of sending students to Exeter if suitable housing facilities are provided. This will give Exeter the needed information as to the size of the addition that should be planned as well as some ideas as to the tuition revenue that may be forthcoming.

I feel very strongly that Exeter should continue to be the educational leader and center at the high school level for the surrounding area and I sincerely hope that Exeter and the bordering school districts will give full support to the above plan.

The school enrollments of the six districts which comprise Supervisory Union No. 16 have grown 58% during the last ten years that I have been superintendent. This increase is from 1245 pupils in 1948-1949 to 1966 pupils in 1957-1958. Because of this growth it is obvious that the work loads of the school nurse, the Union secretary and the superintendent of schools, who are the Union employees, have increased proportionately.

At the Supervisory Union budget meeting in November, it was voted to furnish an assistant nurse to work with Miss Shea, and to increase the secretarial help in the superintendent's office so that one and one-half secretaries would be provided instead of the present one and one-quarter. This action is to become effective in September, 1958.

It was also agreed that the first step towards providing assistance for the superintendent would be taken at

the school meetings this year. This would be in the form of an article asking the voters to consider the addition of a Helping Teacher effective in September, 1959. Such a person would assist the superintendent in many ways but his primary function would be that of an elementary supervisor who would work closely with all of the elementary teachers in the Union in coordinating the elementary program and suggesting improved methods of teaching.

A state law provides for five assistant superintendents and these are located in the larger cities. It also provides for administrative assistance in the larger supervisory Unions through the so-called Helping Teacher. The law states that whenever a majority of school districts in a Union representing not less than 85% of the total pupils vote favorably, a Helping Teacher may be established.

At present there are ten unions which have Helping Teachers as follows: Milford, Plaistow, Lebanon, Peterborough, Tilton, Hampton, Hudson, Derry, Newport and Laconia. The state pays $2500 of the salary of this person. The remainder of the salary is pro-rated according to the Supervisory Union percentages.

I believe that the addition of a Helping Teacher would do much to strengthen the educational program in our Union.

The Parent-Teacher Association continues its support of the school program.

I call your attention to the reports of the school nurse and of the music teacher and to the tables which follow.

I wish to express my appreciation to the citizens, the members of the school Board and the teachers for their continued support and cooperation.

Respectfully submitted,

RAYMOND A. HOYT

REPORT OF THE MUSIC SUPERVISOR

To The Superintendent of Schools:

A well-rounded music program should provide the pupils with certain musical experiences each year, so that there is necessarily some repetition in the yearly music report.

Each pupil should have the chance to experience a wide variety of pleasant musical activities with the hope that from these he may find something that will help enrich his life.

Singing provides an excellent means of self-expression. Helping a child find his singing voice is extremely important in the lower grades. Rote songs, singing games and action songs provide happy experiences for first and second graders. When a child reaches the point of reading readiness, he is provided with a song book. Modern music books contain a wealth of good singing material. Folk songs, religious and patriotic songs, and songs that can be used in correlation with other studies are included. Two-part singing is generally begun during the last part of the fourth grade, with three part singing beginning in the sixth grade.

Rhythms are another important means of self-expression. Clapping, walking, running, skipping, galloping, see-sawing and skating to music are a few examples of lower grade rhythmic activities. Rhythm band and dancing are included in the program. Folk and square dances are enjoyed by the pupils of the upper grades.

Work with tonettes, listening to records, learning the fundamentals of music and note reading are included in the music program each year.

A special musical program was presented by the pupils of the school at the Memorial Day Exercises at the Town Hall.

In the fall new music books were purchased for the students of the upper grades.

In closing, I wish to thank Mr. Hoyt, the Kensington School Board, the Parent-Teacher's Association, the parents and the teachers for their co-operation.

Respectfully submitted,

ELEANOR HENRY

SCHOOL HEALTH REPORT

To the Superintendent of Schools:

The past year was an average year in regard to the health of the Kensington school children. Because of the ever increasing number of pupils in the Supervisory Union, the health education part of our program has had to be curtailed for the present and time given mostly to the health service program.

Ninety-eight per cent of all pupils have received their third and final polio shots and the P.T.A. sponsored dental clinic did a very excellent job of repairing many of the dental needs of the children.

Our program for the remainder of this school year includes:

1. Urinalysis on all children.
2. Patch test on all children.
3. Possibility of physical examinations sponsored by the School Board (if not this year then by next fall).
4. Clinic for all those who have not received their diphtheria, whooping cough, and tetanic shots in recent years. This is usually sponsored by the State Health Department but, due to the increase of diptheria in other sections of the country, it is deemed wise to have the school take on this responsibility for the present in order to protect our children against this very dangerous disease.

Next year we can see a much more active program developing with the aid of another nurse. More service can be given to each school and health education can be resumed along with added activities.

We wish to thank the teachers for their ever-ready willingness to help and also the P.T.A. members for giving of their time, assistance and funds. We are most grateful to the School Board for its insight of the difficulties of working with so large a number of children and for voting for additional help. In the end, it is the children who will benefit.

Respectfully submitted,
